

PRESIDENT FOR ASKS STATE OF TAFT; DEFIES FORKED-DICK RYAN MERGER

LEADERS OPPOSE RECESS COMMISSION — DECLARE NOW IS TIME TO HELP WORKINGMEN.

It is expected that the Committee on the Judiciary of the House of Representatives will report today recommending that all anti-injunction bills and the pleading and amended employee liability bills be referred to a recess commission. A recess commission of the House and Senate, created by Speaker Champ of the House and President Taft, is expected to report today.

Such a disposition of the bills would withdraw legislation on important labor bills for another year, as the recess commission will not report until the next term, and the bills will not be taken up until then.

If a recess commission were favored, it would mean that the House and Senate would be provided with a nice sort of job during the summer months.

If a recess commission were favored, it would mean that the House and Senate would be provided with a nice sort of job during the summer months.

In the meantime, Governor Gould and members of the Legislature would be saved from going on record on their legislation, except on the Overhill bill, which is practically assured of passage. The "friends" of the anti-injunction as Speaker, Mr. Gould, and Mr. Gould, are reported in favor of it.

Purify the Blood and Rheumatism Will Disappear.

Rheumatism, as is well known, is a disease of the blood caused by impure blood. The condition of the blood is always bad when the circulation is poor, and you cannot accomplish the purification of it by any system of purging. It is necessary that the nerves which control the circulation of the blood should be made to do their normal work.

Cleanse, purify and strengthen the blood by taking Dr. Greene's Nervine and nerve remedy, and your rheumatism will soon be a thing of the past. Read what Mrs. E. W. Hinds of Pittsburgh, Mass., says:

"I have been terribly afflicted with rheumatism, and I wish all to know how I have been cured. One year ago last December I got so bad I had to call in a doctor. He came a few times and he could do nothing for me. I must wait until warm weather. I knew worse until I was perfectly helpless. My sufferings were great. I commenced taking Dr. Greene's Nervine, and in six months I could go up stairs and down as spry as anyone. I had taken a new lease of life. Dr. Greene's Nervine cured me. I have almost died with pain, but now I can enjoy life now and ride between five and six miles, sit down to work and go out alone, and feel perfectly free from rheumatism. I thank God and Dr. Greene for restoring me to health."

Dr. Greene's Nervine is always pure, harmless and effective, and put up in compliance with the new National Pure Food Law—guaranteed fresh at Washington—serial number 160.

Dr. Greene is the well-known pure medical lecturer and specialist in treatment of all nervous and chronic diseases, and can be personally consulted at his office, 24 Temple Pl. Boston, or by mail, free.

The Chauffeur and the Twelve Hundred Dollar Muff

The People Should Control and Pay Well Their CHAUFFEURS—On the Front Platforms of Street Cars

He gets it doubtless in many interesting and ingenious ways. But, like his master, he gets it.

Do the people ever think how generously and kindly the large money men treat **THOSE UPON WHOM THEIR SAFETY DEPENDS**?

Every man with a great deal of money has his chauffeur, AND THAT MAN IS VERY WELL PAID AND THOROUGHLY RESTED.

You don't find the man with a hundred millions WORKING HIS OWN CHAUFFEUR eighteen or twenty hours a day, do you?

Hardly. To have a man tired out running a machine along the road might be dangerous to the gentleman behind. It might cause uncomfortable accidents.

The motto of the man with a hundred millions is: "A well-fed, well-rested chauffeur for ME."

It is a good motto, and the chauffeurs in consequence are a prosperous, happy class, very neat and sleek in their leather leggings and fine fur coats. We don't envy them anything that they get. MAY THEY GET EVEN MORE IF POSSIBLE.

But how about the people and their chauffeurs?

The chauffeur of the people is the gentleman on the front end of a street car or the front end of an elevated or a subway train. Wouldn't it be a good thing for the people's chauffeurs and for the people **IF THE PEOPLE ACTUALLY HIRED THEIR OWN CHAUFFEURS AND ARRANGED THEIR PAY**?

As it is, the chauffeur of the street car is on the payroll of the gentleman in the private automobile. And the motto where the people are concerned is: "LONG HOURS, LOW WAGES, BIG DIVIDENDS."

If the people owned their own street cars—as they should own them—THEIR CHAUFFEURS, THE MOTORMEN, WOULD BE DECENTLY TREATED.

They probably wouldn't be paying twelve hundred dollars for a muff and a fur ribbon; that would be a little beyond the paying possibilities of the public.

But if the chauffeurs of the people, the motormen who guide the cars, the conductors who give the signal, WERE ON THE PEOPLE'S PAYROLL, they would be decently treated.

And then the people would also have for their motto: "A well-paid, well-fed, well-rested chauffeur for US."

How long are we going to have a dozen overfed millionaires with their well-paid, well-rested, personal servants looking after their safety, and the millions upon millions of ordinary people with their safety confined to UNDERPAID, TIRED, OVERWORKED MEN?

How long will it take the people to have brains enough to protect through public ownership their own comfort, their own safety and the welfare of the thousands that work as public servants of the public?

In Mexico a Man Has Suddenly Made Millions

He Wants to Spend His Money KILLING OFF AN ENTIRE RACE OF INDIANS

Now he tells the government that Yaqui Indians are a menace to the people, and it would give him much pleasure to spend twenty millions of dollars killing them off. The soldiery of Mexico has been fighting the Yaquis for many years, but nothing seems to annihilate them. Mr. Alvarado believes that twenty millions, well spent, would get rid of the last one of them.

It is cheerful to realize that this suggestion to destroy the lives of thousands of ignorant, helpless savages kills the average man in our day with disgust.

It is not pleasant, according to the modern view, to think of this man progressing from hard labor to a hundred millions, and planning to spend his millions to murder wretched savages.

Women especially hate this idea of slaughter. To impress upon them the progress of the world, we remind them of the fact that only a few centuries ago EVERY WOMAN LIKED BEST THE MAN WHO MADE A SPECIALTY OF MURDERING OTHERS.

Young women today like men with wide shoulders, big, fierce whiskers and thick, heavy hands. But they don't know why they admire those things.

They admire well-dressed brutality because they inherit from their grandmothers of a thousand years ago a deep respect FOR THE MAN ABLE TO MURDER HIS NEXT-DOOR NEIGHBOR.

Emotions which we imagine to be original with us are inherited from ages past, when the occupation of each man was to rob and murder his neighbor's family. In those days the chief business of women was to select as the fathers of their families the men that looked most savage, that WERE most savage, and that fought the best.

In our day a little, soft, white-handed Castiglione of Paris or Marlborough of England is able to come with smiles and braces and get the wife and the money that he needs.

Mr. Alvarado of Mexico is simply the intellectual descendant of men whose pride was in murder. And the women who are shocked at him and his plan of murder are the improved descendants of those that ALWAYS looked first at the big whiskers, at the big teeth and the big muscles—AND THAT ARE STILL INCLINED TO JUDGE MEN THAT WAY RATHER THAN BY THE SHAPE OF THEIR HEADS OR THE CONTENTS OF THEIR HEADS.

Women, try to admire brains instead of whiskers and muscles.

A READER asks me to discuss the following topic: "What is the highest ideal for a human being—poor, poor, so-so, so-so, or power?" I have known a man of no financial or social prominence to win the respect and admiration of his entire community because his absolute integrity was so manifest. He was evident in every act and word. Does It Pay to Be Good? A WOMAN writes me a dissertation on life and asks: "Does it pay to be good?" "Appreciation," she writes, "is the wine of life, so that when we hear everything that character promised us try for everything but character. If a man reveals a fine sentiment or a soul of feeling he is looked at curiously, as though to say, 'He is inexperienced.' Why should the high-thinkers blush to reveal themselves as the letter of things?"
